OUR RESOURCES

Life Perspectives offers a comprehensive selection of pregnancy center resources. We have a new range of thoughtful sympathy cards for people who have experienced reproductive loss. Our latest booklet, “Hope After Loss” helps those who have been touched by miscarriage to reflect on what has happened and to assist in their grief journey. The “Changed” booklet is for men and women who have experienced abortion, and features shared stories and helpful healing activities. There are also posters and postcards encouraging hurting people to visit our healing websites.

TO PURCHASE THESE, AND MANY OTHER HELPFUL RESOURCES, PLEASE VISIT OUR ONLINE STORE

OUR HEALING WEBSITES

MiscarriageHurts.com
+ AbortionChangesYou.com

These sites offer an invitation for men, women, family members and friends to begin their healing journey and to find support in grief.

“Very impressed! Empowering each person here to help others.”
Volunteer, Sierra Pregnancy + Health, Sacramento, CA

APPLY TODAY!

Please contact Tricia Lewis at Trica@LifePerspectives.com to schedule training for your organization, or to discuss our Reproductive Grief Care Certification. You can also visit LifePerspectives.com/training for further information.
Reproductive Grief Care Training

One in four pregnancies ends in miscarriage and one in four women in the US will have an abortion by the age of 45. Although these losses occur very differently, the grief experience is similar and affects men, women, family members, and friends. With our unique Reproductive Grief Care Training, you can bring hope and healing to hurting people who may be suffering alone.

Training will:

- Broaden your understanding of grief and loss after miscarriage and abortion.
- Provide you with essential knowledge and empathetic listening skills.
- Help you explore how to be a safe place for hurting men and women, and provide healing resources to support those in your community.

Achieve the Gold Standard of Care!

Reproductive Grief Care Certification suits those seeking to provide the highest level of care. With training and practical resources for your entire team, it equips you to create an environment where men and women feel safe to disclose their reproductive history, and to support them in the midst of, or after, a loss. It also positions your organization as a center of excellence in reproductive grief care in your community.

This certification is awarded to centers that demonstrate:

- Reproductive grief care competency among all staff and key volunteers.
- Compliance with grief care best practices.
- Adoption of adequate self-care policies.
